Open Forum:

PFA has submitted budget to the school advisory council and it has been incorporated into the school budget for next year.

One of the parents asked why Staycare is not going to be open during the summer this year. The answer was that there are not enough employees willing to work during the summer.

The parent made the point that some families with two working parents will not be able to send their children to summer school or Sonshine summer because they will not be able to arrange for transportation to their summer daycare. These are important programs to further the educational and spiritual development of our children.

Next meetings are Thursday, April 19, 2007 at 6:30pm in the library and Thursday, May 10, 2007 at 6:30pm in the library.
